

PERMA TANK

Introduces

The **HYDRO-AIR** Lo Boy

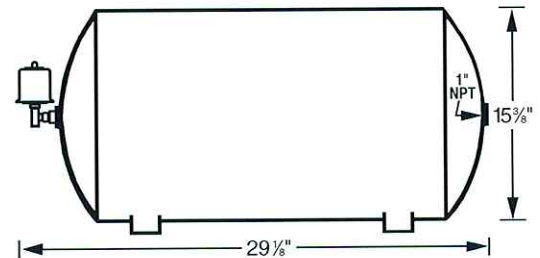

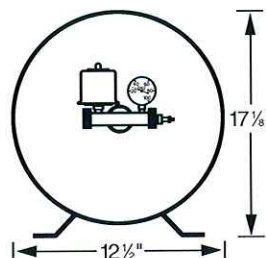

Only 17½" From Top To Bottom

The **HYDRO-AIR Lo Boy** is a pre-pressurized pump tank system especially made for those installations that have limited headroom. It is especially suited for installation in:

- Crawl Spaces
- Manufactured Housing
- Camps, Cottages, Recreational Housing, etc.

The **Lo Boy** is a full 20 gallon tank with the pressure switch, pressure gage and air valve factory installed on the air side of the tank. It is equipped with cradle type legs that permit easy installation in any area where height is at a premium. As with all **HYDRO-AIR** tanks, the **Lo Boy** works better and is easier to install. The **HYDRO-AIR** tank is also available in vertical models; 20, 36, 52 and 86 gallons. See form # PTWS Hydro-Air1/298 for more details.

MODEL	PRESSURE RANGE	DRAW DOWN IN GALLONS
PCMH-20	20 - 40	7.4
	30 - 50	6.2
	40 - 60	5.4
